AST Partnering with KPD to Combat Drug and Alcohol Trafficking on Kodiak

(KODIAK, Alaska) – Alaska State Troopers are partnering with the Kodiak Police Department to combat mid-to-upper level drug and alcohol traffickers operating in the Kodiak area. Effective May 16, AST will have an assigned trooper investigator to the Statewide Drug Enforcement Unit (SDEU) in Kodiak to work closely with the Kodiak Police Department. This position will be supervised by a trooper Sergeant within the Southcentral Area Narcotics unit (SCAN) in Soldotna.

The former partnership between Alaska State Troopers and the Kodiak Police Department specifically tasked with combating drug trafficking in Kodiak was disbanded in the fall of 2004.

DPS would like to thank Governor Walker for making possible the designation of this newly assigned trooper position and for continued support in the efforts to reduce the availability of illegal substances to communities such as Kodiak.
